

fábrica de muebles.

1984

¡35 years! Fábrica de Muebles was founded in 1984 by Dn Pablo Silva Juárez in Guadalajara, México and since then our factory has worked continuously with a wide range of products, in alliance and collaboration with different companies, stores, design brands, architecture studios and designers.

LE PORC-SHOP®

FSG FURNITURE

Bertha Lounge Chair in Starbucks Reserve
Artz Plaza, Mexico City.

LE PORC-SHOP®

Today, Scott Mitchem, director of Concepts for Furniture, Fixtures and Finishes, and his team in New York and Seattle create a catalog of more than 500 furniture and fixtures for Starbucks stores in the Americas. **“One of the new classics in Starbucks furniture collection is a lounge chair called Bertha. Inspired by mid-century modern design, with clean lines and a timeless style,** it is equally at home in a modern office tower as it is a historic brick building. It comes in six different colors, but no purple.

“We want our furniture to have that durability and that beauty,” Mitchem said. **“We’re making an investment in quality furniture that will last and still have style.** Whether it’s leather or wood, whether it’s rustic or modern, there’s something in there that feels authentic to who we were and who we are today.”

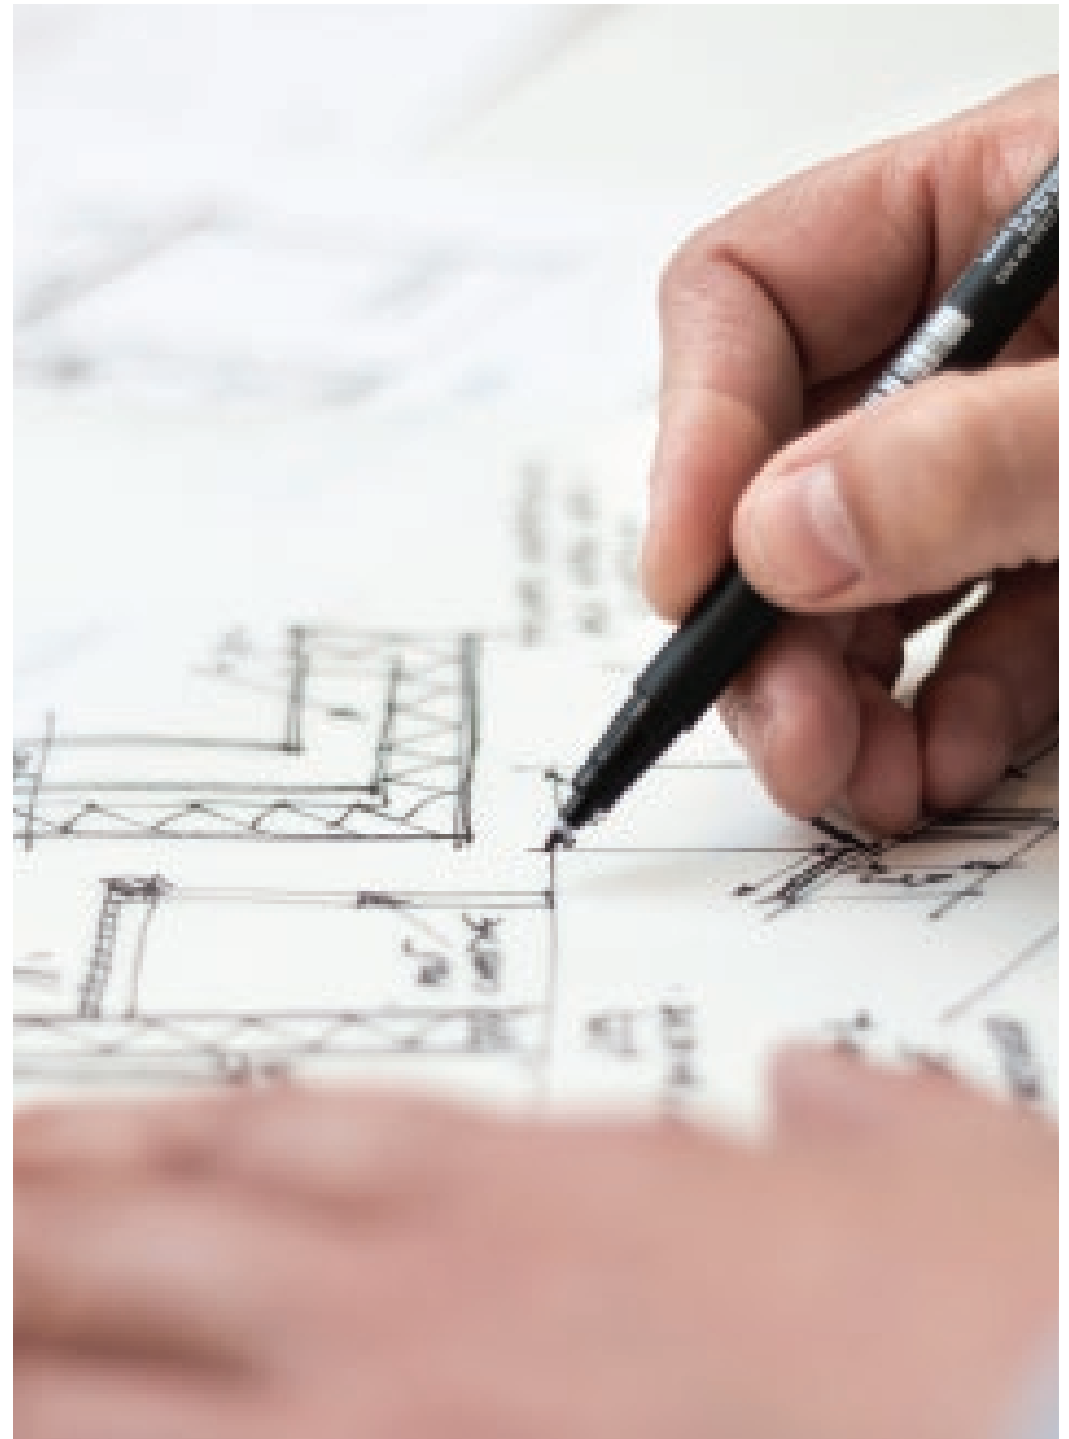

- By Heidi Peiper/Starbucks Newsroom

Starbucks Reserve Mount Pleasant,
Vancouver, BC, Canada.

Are you an architect, an interior or industrial designer, an entrepreneur? - We can help:

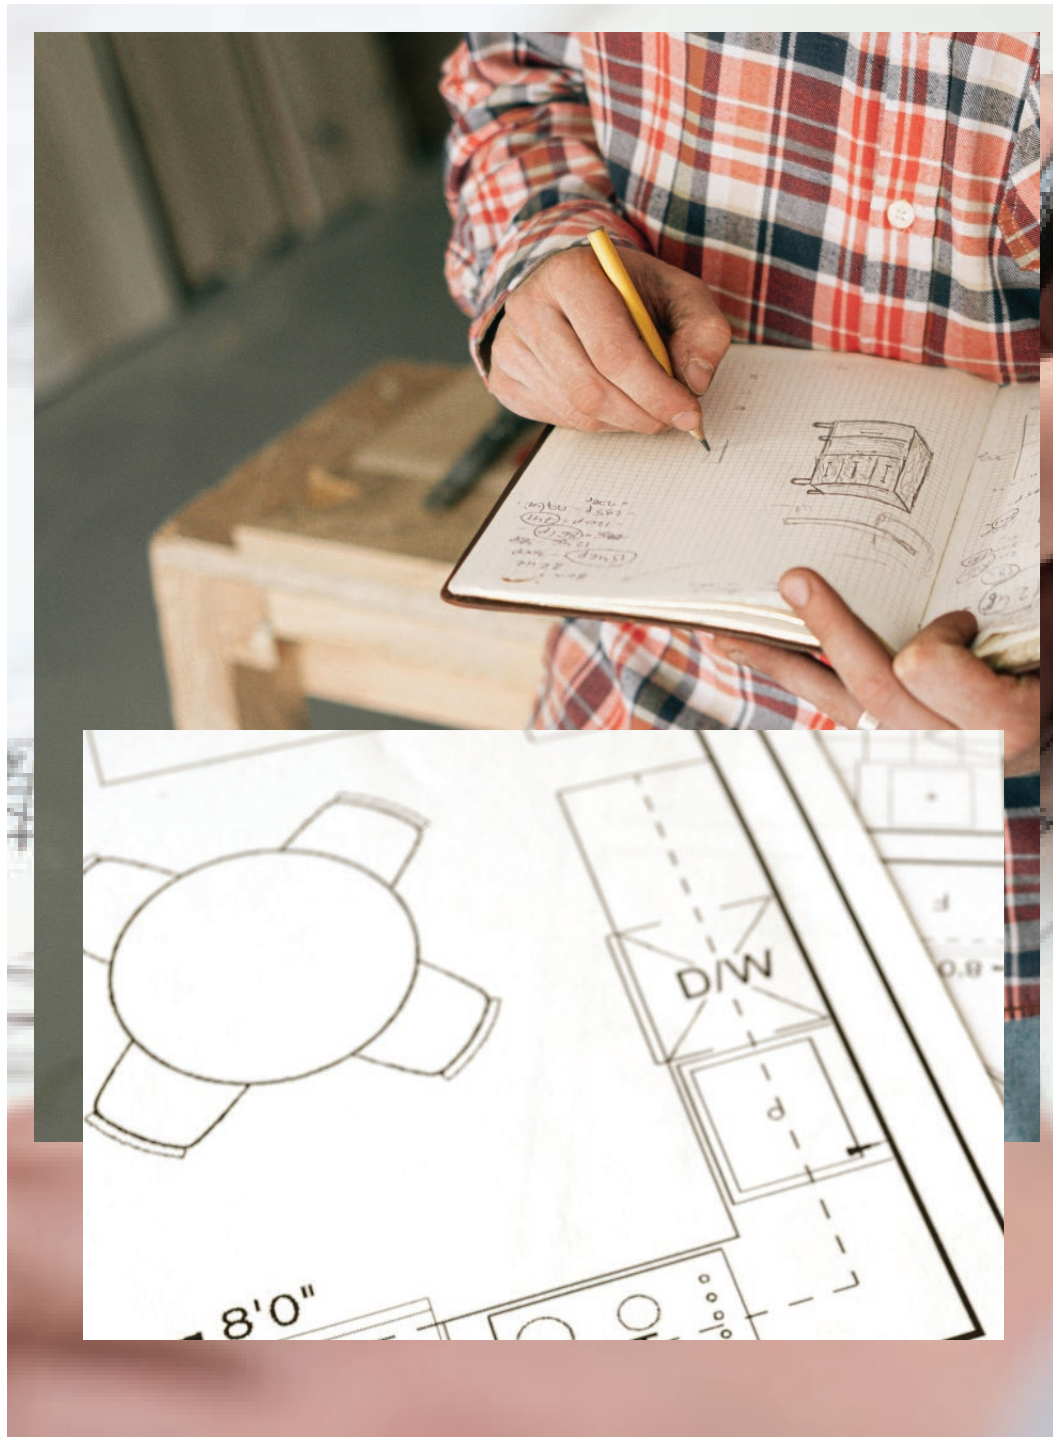

Tell us your project.

LE PORC-SHOP®

We are focused on solid wood, with delicate and detailed carpentry work. Those are the characteristics that add value to our pieces: **Tailored service, design and craftsmanship.**

Stores, hotels,
restaurants, outdoor,
coffeshops, home.

LE PORC-SHOP®

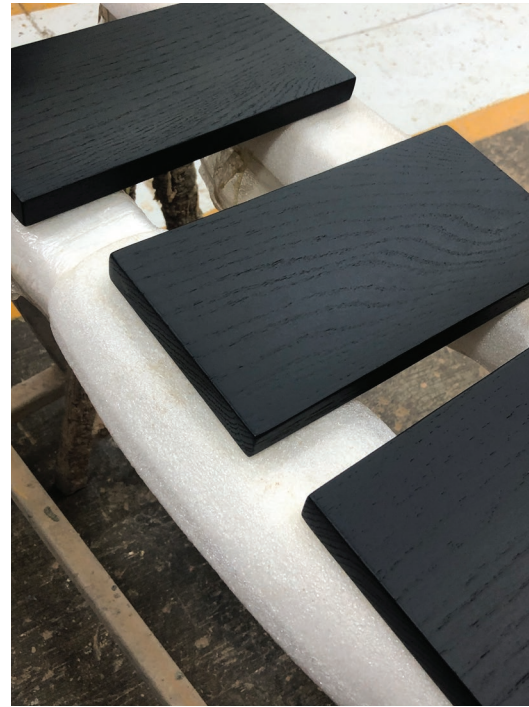

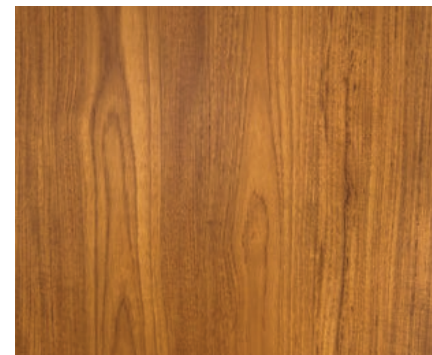

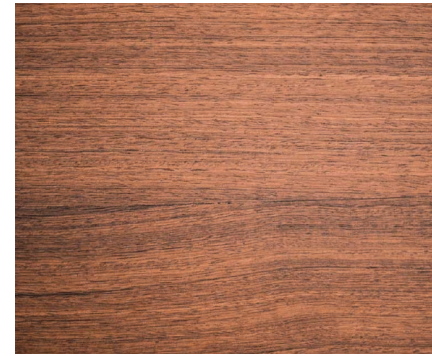

DROESE RANEY
ARCHITECTURE

Dallas, Texas.

We design, we provide materials and finishes research, we craft prototypes and we manufacture your furniture for stores, restaurants, hotels and residential houses in Mexico, USA, Canada and other countries.

We use premium materials that infuse each product with a unique feel and exceptional performance. We use certified solid wood and sometimes engineered woods from México, USA and Europe. **The amazing selection of woods** we use is FAS, 1st and 2nd grade, which is the highest grade wood available. This grade is the brand for long, clear planks of incredible quality.

Outstanding handmade
craftmanship. The perfect
balance of tradition and
technology.

Our carpentry is extraordinary because we have many years of experimentation, exploration and development of assemblies, structures and finishes. The relationship we have with wood tells stories.

Our definition of high quality always involves **punctuality**.
We organize our production time tables and lead times
to deliver always on time.

Family Bench. LE PORC-SHOP®

Prototypes and limited edition pieces in small batches for design studios and designers.

We can also develop and design with emphasis on **functionality and cost efficiency.**
